

"LONGEVITY BASICS"

AGING CAN'T BE STOPPED (YET), IT CAN BE SLOWED.

LIAM KRATOS

"AGING CAN'T BE STOPPED (YET), IT CAN BE SLOWED."

WELCOME TO KRATOS NATURAL:

You **don't** have to **age** 12 months for **every** **year** you live.

By making the **right choices** you can **slow** your **speed of aging**, feel younger and even **extend** your **life and health span**.

This guide will teach you **the basics** that determine how fast or slow you age.

But keep in mind **life is** also **about** **enjoying** while we are here because **life is** **short, too short...**

"NUTRITION"

AVOIDING EXCESS SUGAR AND REFINED CARBS:

Sugar binds to proteins and creates compounds called **Advanced Glycation End Products (AGEs)**. They stiffen your skin (wrinkles), harden your arteries (heart disease risk) and damage your joints (joint pains). By reducing sugar and refined carbs, you reduce glycation and slow down visible and invisible aging.

COOKING LOW AND SLOW:

High-heat cooking forms a brown crust (which I love) but that's **AGEs** that accelerate aging. The best options are steaming, boiling or slow cooking.

EATING "REPAIR" FOODS DAILY:

Omega-3s reduce inflammation (which drives nearly every age-related disease) and strengthen cell membranes in the brain, improving mood and memory.

Polyphenols fight oxidative stress by neutralizing free radicals that would otherwise damage DNA, proteins and mitochondria.

Antioxidants prevent LDL cholesterol from oxidizing which are a key trigger for clogged arteries.

"MOVEMENT"

ZONE 2 CARDIO:

Zone 2 cardio is low-intensity movement that burns fat efficiently and improves mitochondrial health. It's the foundation of endurance and energy. Think 45–90 minutes of jogging, cycling or rowing at around 79–81% of your maximum heart rate.

VO2MAX TRAINING:

Short, intense bursts like sprints (**Zone 5 training**) improve your **VO2max** which is the measure of how well your body uses oxygen. **VO2max** is one of the strongest predictors of longevity.

STRENGTH TRAINING AND PLYOMETRICS:

Strength training preserves bone density, builds muscle mass and boosts hormones like testosterone. While **plyometrics** or **speedwork** improve agility and explosivity.

"SLEEP & LIGHT"

(MORNING) SUNLIGHT:

When UVB light hits your skin, it produces vitamin D which controls over 1,000 genes linked to immunity, bone health and even testosterone. **Morning sunlight** tells your brain it's daytime which syncs your circadian rhythm so melatonin (your sleep hormone) gets released at night.

AVOIDING ARTIFICIAL LIGHT AT NIGHT:

Blue light at night tricks your brain into thinking it's still daytime. This suppresses melatonin (your sleep hormone) and this disrupts restorative phases of sleep.

CONSISTENCY WINS:

Going to bed and waking at the same times trains your body into deeper and more restorative. During deep sleep, your brain clears out toxins like beta-amyloid (linked to Alzheimer's), your muscles rebuild and growth hormone peaks. Missing out on deep sleep accelerates aging.

"HORMONES"

SLEEP, TRAINING AND PROTEIN BALANCE:

Testosterone and growth hormone rise with **quality sleep, strength training**. The body needs enough **protein** to support muscle repair, collagen and enzymes. Too much **protein** (especially constant high doses of leucine) can stop sirtuin activation which are one of the key longevity pathways.

AVOIDING PLASTICS AND CHEMICALS:

Endocrine disruptors are **chemicals** found in **plastics, oxidized oils & fats** and **cosmetics** that mimic and/or block your natural hormones. Protecting your endocrine system keeps testosterone, thyroid and estrogen balanced.

STRESS CONTROL:

Cortisol is useful in short bursts but **chronic stress** keeps it elevated which breaks down muscle, raises blood sugar, increases belly fat and accelerates aging. Breathwork, cold therapy and/or meditation can help balancing **cortisol**.

"ENVIRONMENT & MINDSET"

CLEAN WATER AND AIR:

Toxins, heavy metals and **pollutants** accelerate aging. Filtering water and air is one of the simplest high-return investments in health.

AVOIDING MOLD, SMOKE AND CHEMICALS:

Mold toxins, smoke and **chemical-heavy cosmetics** damage mitochondria and disrupt hormones.

PURPOSE EXTENDS LIFESPAN:

People with a strong sense of **purpose** live longer and healthier. Having a reason to wake up in the morning activates survival and repair pathways in your body.

BEING OUTSIDE DAILY:

Grounding, fresh air and **sunlight** are free anti-aging therapies. Nature restores your nervous system, lowers stress and recharges mitochondria.

"CELLULAR REPAIR"

FASTING FOR AUTOPHAGY:

During long enough **fasts**, your body starts clearing out damaged cells and proteins. This process is called **autophagy**.

POLYPHENOLS TO ACTIVATE LONGEVITY PATHWAYS:

Compounds like **resveratrol**, **green tea** and **cacao** activate **sirtuins** that regulate repair and longevity.

HIGH-QUALITY PROTEIN:

Your body needs **amino acids** for collagen, enzymes and tissue repair. High-quality **proteins** allow your body to actually rebuild and repair.

"SKIN, HAIR & NAILS"

AVOIDING OXIDIZED OILS AND AGES:

Industrial refined seed oils and **fried foods** oxidize in your body and damage collagen which result in weaker skin, hair and nails.

LOADING UP ON NUTRIENTS:

Zinc, silica, vitamin C and **collagen** are essential for healthy skin, nails and hair. Best sources are **oysters, bone broth, citrus fruits** and **greens**.

PROTECT AND REPAIR WITH LIGHT:

Too much **UV** and **blue light** = faster aging of the skin. **Red light** therapy stimulates collagen and skin repair.

You now understand the foundations of longevity.

But knowledge alone **won't change** your situation.

Action will.

That's why I created **the Kratos Protocol**.

With the **Kratos Protocol**, you work with me directly for **12 weeks**. I build your **personalized protocol**, then **adjust it** every week based on your progress in our **calls**. Between calls, we **stay connected** through **direct messaging**.

Together, we will **slow your speed of aging**.

On top of that, you get **lifetime access** to all my **e-Books, guides, protocols** and **checklists**.

I will get you the **results you're looking for**. Within weeks you'll notice **improvements in energy, recovery, sleep, focus** and **performance** and even **visible changes in skin, hair, nails** and **body composition**.

I'm so confident that if you don't notice **improvements after 12 weeks**, I'll keep working with you for free until you do.

If you're not ready for 1:1 coaching, I've built easy to follow **longevity protocols** that show you exactly what to do, why it works and how to apply it to your life today.

With code: **EBOOK15** you will get **15% off**.
